

## Zen Technologies Limited announces Q4 and FY 2009-10 results

**Zen Technologies Limited** ([www.zentechnologies.com](http://www.zentechnologies.com)) today released its financial results for the fourth quarter and annual results of FY 2009-10. The Board of Directors at the company's meeting in Hyderabad approved the financial results for the quarter ended March 31, 2010.

### Highlights

- ❖ Net sales for the financial year is Rs 52.23cr against Rs 63.07cr last year
- ❖ Net profit for the financial year is Rs 16.84cr against Rs 18.56cr last year

Commenting on the results, Ashok Atluri, CMD, said: “Unlike the previous year, there were no big orders this year. We executed the pending major order in the first two quarters of this financial year, well ahead of the schedule. We, however, expect the new financial year to be rewarding. We have strongly bid for orders worth few hundreds of crores, whose outcome will be known in a staggered way, starting next few weeks. Still our performance in the first two quarters of the current financial year might be dismal due to low number of orders on hand.”

Commenting on the seasonality of business, he said: “This year's performance is in line with our normal course of business. Due to dependence on Government orders, the results are often lumpy. To ease our dependence on Government orders, we are following two courses of action.

We are foraying into the European market from the United Kingdom. We expect the new European Union regulation mandating recurrent training to create a big demand for high-end driving simulators, which we plan to address.

The car-action game SnS: Reprisal ([www.snsthegame.com](http://www.snsthegame.com)) is on track for the year-end release. SnS: Reprisal is a story-based car-action game with an almost destructible world, the sort of which has not been seen in car games so far. The teaser of the game, released at GDC (San Francisco) and Game Connection (Lyon, France) received positive feedback.”

### About the company
